ABOUT ME

I am a future MERN Stack developer passionate about building modern, efficient, and user-friendly web applications. I learn quickly, enjoy solving problems, and love exploring new technologies. Although I haven't worked in a team environment yet, I am eager to gain real-world experience and collaborate with others in future projects. I am committed to lifelong learning and staying up to date with industry trends to create meaningful and impactful solutions.

HOBBIES

- 1: My hobby is programming because I enjoy creating useful things with code.
- 2: I love learning new technologies and exploring parts of a system work.
- 3: Programming helps me think logically and solve problems in smart ways.

WORK EXPERIENCE

- Frontend, Backend
- Full Stack, Mern Stack

EDUCATION

BDC

Jessore
Apr 2024 - Present

HSC

Completed the Higher Secondary Certificate (HSC) with a strong focus on core science subjects including Biology, Chemistry, Physics, and Mathematics. Gained a solid understanding of scientific research methods, critical thinking, and analytical problem-solving. Strengthened verbal and written communication skills through assignments, presentations, and class activities. Participated in laboratory experiments to observe how theoretical concepts apply to real-world situations. Built effective organizational and time-management skills by balancing coursework with extracurricular activities. Developed a strong academic foundation that prepared me for advanced and specialized studies.

BUHS

Jessore
Jan 2022 - Feb 2024

SSC

Completed SSC with a solid academic foundation in Social Studies, Science, and Mathematics. Developed strong critical thinking, problem-solving, and communication skills. Gained real-world understanding by applying theoretical knowledge to practical school-level projects. Achieved a GPA of 4.28, reflecting consistent dedication and academic excellence. Participated in extracurricular activities that strengthened confidence, discipline, and leadership qualities.
